

## **APPENDIX 6: MARATHONS BY LEAGUE**

NOTE: Games are subtracted out to avoid double-counting. For example, a game involving an International Association minor league team at a college team is subtracted out of the minor league total, but not subtracted out of the college total, because the college was the home team. Another example is that a game listed both under the Mexican Center League minor league and under Mexico is subtracted out of the Mexico totals so that it is not double-counted.
